I picked this album up in a second-hand shop for a buck because John Fahey was on it and let me tell you, this is one great LP! This gal was born to sing the blues and if you are a blues fan who enjoys the more traditional blues of people like Bonnie Raitt and others, you must have this record. I understand it's hard to find as are all of Jo's records, but the music is first rate: fine guitar playing and a voice that sounds like it's right out of the gutter and I mean that in the best, blue-tradition way possible. --- Truenorth, rateyourmusic.com
