Total Recorder Professional v7.0 with all Addon

The Professional Edition is the main edition from the Total Recorder product family. This edition provides many powerful functions for the recording, converting, editing, and processing of sound. With the Video Add-on, you can record from any combination of video and audio sources.You can record streaming audio, Mic input, Line-in input as well as CDs and DVDs. The resulting files are saved on your computer's hard-drive. The system also allows users to schedule any number of future recordings!
