Bonnie Lee cut her first full-length album, *Sweetheart of the Blues*, in 1995, nearly 30 years after she established herself as a staple of the Chicago scene. During those years, she sang constantly, and it's clear from the first note that this album is the work of a seasoned pro. Lee pretty much sticks to standards like "Baby, What You Want Me to Do," "Walking Blues" and "That's All Right," but that's all right, because it gives her the opportunity to wail. And wail she does, proving she's a fine soul-blues vocalist, capable of great things. She doesn't reach greatness here, but *Sweetheart of the Blues* is a classy set of Chicago blues. It's just too bad that it took her so long to cut the record. --- Stephen Thomas Erlewine, Rovi
