This is the first release from local legend Whiteboy James since 1992. As the 1992 release was the launching pad for Whiteboy, this release is the product of years of song writing, playing and building a reputation which allowed Whiteboy to attract hardcore veteran musicians to the band. With this release, Whiteboy was clearly successful capturing the raw energy and fun, albeit rated X at times, of his live performances that have made him a L. A. blues legend, and one of the founders of the L.A. Blues sound. ---Editorial Reviews
