Ilana's fiddle gives a refreshing take on the Blues with deep sliding notes alongside her sultry vocals and even a touch of jazz with some scat singing in sync with the fiddle. In the vein of Papa John Creach, "Gatemouth" Brown, and Howard Armstrong.

"Movin' On" – from Regina Royale Records - is Ilana Katz Katz's deeply wonderful follow-up to her well-received debut record ("I've got Something to Tell You" in 2014). Ilana's stunning blues fiddling and break-out vocals are showcased - front and center – with the very tasteful backdrop of some of the best living Blues and Roots musicians.

Ilana's fiddling stems from the old-time Appalachian tradition and dives deep into the Blues. In addition to her Blues and Appalachian music mainstays, she is a versatile, improvisational musician, as comfortable performing solo in large theaters as she is being featured in 14 piece rock bands or on Boston's Subway platforms (where you can find her most Fridays).
