Thanks Recorded live at the UPTOWN THEATER in Marble Falls, TEXAS on September 11, 2010

Live in Texas is the new amazing, moving and intense CD by Fabrizio Poggi & Chicken Mambo. Accompanying Fabrizio and his band on the project are a number of great musicians: Flaco Jimenez, Marcia Ball, Floyd Domino, Ponty Bone, Debbi Walton, Tommy Elskes, Donnie Price and many other heroes and friends.

Concerts, meetings, the free and spontaneous sessions; the CD and the film capture all of this. But it is also a kind of ritual, as Fabrizio explains in the movie, in which the musicians of the present meet the spirits of the past that still linger in the Texan spaces. A crossover of the real and the spiritual, a music of the soul. And in fact, it is an album and a movie about the soul of the blues, which has no nationality. Italian musicians play on stage along with American ones as Fabrizio did many times in his long career.

Fabrizio plays accordion not an harmonica here but the accordion is a special accordion made

just for Fabrizio from the famous factory "Castagnari accordions" located in Recanati (Italy). It is a special model called "Armonetto" (comes from armonica- harmonica and organetto - accordion), because it is half harmonica and half accordion. Fabrizio designed the project and the Castagnari made it. It is the only one all over the world. --- worldofharmonica.blogspot.com
