Innes Sibun, guitar hero from Britain, presents his top-selling album ""Tail Dragger"". Energetic, powerful, a must-have! ---amazon.com

Great album, one of my favorites of 2007.. Innes is a fantastic guitarist, and I'd recommend all of his albums. Influenced a lot by Peter Green and the 3 Kings along with classic rock. Innes played for awhile as guitarist in Robert Plant's band, so you know the quality's there. His version of "As The Years Go Passing By" is stunning. His vocal delivery is what carries it over the top. But, as for the Rory comparisons, I'm not so sure. --- jbonamassa.com
