A supergroup conceived by the DDR record label AMIGA and premiered live at the "Rock für den Frieden" festival on 29 January 1983, of which the LP is the sole document of their existence. ---discogs.com

This is a little piece of music history, because the "Amiga Blues Band" never really exists. The members of this project were just members of other GDR blues and rock bands. It was actually founded as a cover band and they came together to make just one record named "Not Fade Away". It was a great success and one of the best blues bands in the GDR. Absolutely well worth listening! --- Headshopboy, discogs.com
