We play blues in Greece for over fifteen years now. We enjoy every gig like our first one! --- bluestrackers.gr

Blues Trackers is placed among the most significant blues bands in Greece the past fifteen years. With a steady team for over ten years now they play mainly blues and rock stuff influenced from the bands and the music of the late 60's and 70's. They have played together with great blues artists such as the blues giant Louisiana Red and the famous Chicago "Tiger", the great singer Nellie Travis. The band has also opened many concerts for world known artists such as Glenn Hughes and Dr. Feelgood and in October 2011 released for first time an album consisted only from Blues Trackers originals. ---cdbaby.com
