The George Foster Band is a high energy, hard rocking group that blends, blues, soul, rock. Based in the classic style of a 4 piece unit - guitar and harmonica, up front, backed by drums and bass..and expanding on the sounds of classic blues into an explosive concert level experience. ---saintrocke.com

Excellent debut studio disc by this bad-ass, blues/rock guitarist from California featuring 11 tracks of pure, retro-70s, heavy guitar-fueled music that lands with style, class and soul-power. George Foster digs deep in the six string groove and delivers a killer set of strong material that rocks the blues to a new level of guitar rock excellence. The "Divine Soul Ride" disc also features the outstanding vocal talents of Jarrett Williams, a true superb, soul-powered, world-class vocalist who shines with dynamic strength & melody. The outstanding rhythm section consists of John Hart on Bass and Gary Ferguson on Drums. Ferguson is a professional seasoned veteran of supreme drum playing skills who has played and recorded with the likes of Gary Moore, Glenn Hughes, Les Dudek & Eddie Money among many others throughout his long-standing musical career. Prepare to take a memorable, vintage blues rockin', heavy guitar fueled "Divine Soul Ride" that is inspired by the likes of Jimi Hendrix, Robin Trower, Frank Marino & King's X.
