Pambudi - Guitar, Vocal Ahot - Bass, Backing Vocals Handy - Drums, Backing Vocals Sandy - Piano, Hammond Organ

Electric Cadillac has brought an energetic blend of sounds was combining a hybrid of blues, hard rock and psychedelic rock. Kongko's guitar and vocals are the factors responsible for the blues feel of the band while the psychedelic touch is brought in by Tju Sandy Hasan on keys, Enti Widodo on bass, and Meidian Syahputra's drumming style does definitely has a hint of jazz influence in it. They started the band in 2008 and have been creating ever since. Their debut album TAKE A RIDE featuring catchy yet rich blues tunes both in Bahasa Indonesia and English, with lyrics that are easy to relate to as they are mostly inspired by the ups and downs of daily life. Their new single and the whole album will be released soon titled "Dancing All The Way", with original tracks contents of Traditional Blues. Most will be based on Chicago 50's era even though the guitar or some songs will be influentialy by Blues Rock, it's more traditional and old school stuffs such as Boogie, Blues shuffle of Muddy, Buddy Guy, and BB King style. One can't really argue the fact that these guys made a nice addition to the blues communities in Jakarta as well as other parts of Indonesia. ---electricguitarblues.blogspot.com
