"Golden Classics:Guitars In Orbit", by Elmore James, is a compilation issued by Collectables Records of what "Rolling Stone" and MTV News music journalist Kurt Loder called "historic, breakthrough recordings" that influenced punk rock and heavy metal music in the 1980s. There are no liner notes on this CD, if my memory serves me correctly, but I know that the music was recorded during Elmore James' final recording sessions in February, 1963, before he died of a heart attack a few months later. --- Lawrence P.
