Etta James can moan, groan, and holler the Blues, sing sweet Soul music, croon smooth Jazz, and belt out R&B in short Etta can do it all! She extracts the deepest passion of Blues singing and re-injects it into any song of her choice, originating from most any musical genre. A legend in her own time, she has influenced Tina Turner, Janis Joplin, Gladys Knight and countless other successful female soloists. James pioneering 1950 s hits like Roll With Me Henry (The Wallflower) also substantiate her place in the early history of Rock and Roll alongside such icons as Little Richard, Chuck Berry and Ray Charles.

Like many great Blues performers, Etta James is best experienced live! In the early 1980 s Etta James played mostly smaller clubs, and it was during one of these appearances in New York, in 1980, that this exciting live album featuring her incendiary vocal performances of Blues and Soul classics was recorded.
