After serving as front man and harpist for the legendary Muddy Waters band for 12 years, blues harp legend James Cotton's debut at Verve Records in 1967-1968 is generally conceded to be his most fertile period artistically, and this intelligently chosen best-of does little to dispel that impression. This CD covers all the music from Cotton's first classic LP on Verve, plus nine tracks from his next two Verve releases. A total of 20 awesome cuts in all. It remains one of the crucial artifacts of the '60s blues revival.
