Vee Jay's 1964 album John Lee Hooker on Campus is titled to sound like a live recording but it isn't. As part of the Collectables Vee Jay reissue campaign, these 12 tracks originally tried to capitalize on Hooker's emergence on the coffeehouse/college tours he was involved in at the time. This is an electric album that contains excellent material from Hooker, even though the occasional background singers get in the way, attempting to modernize his gritty blues with a smoother soul sound. All of the Vee Jay reissues of John Lee Hooker material are worth having and are budget priced as a bonus. ---Al Campbell, AllMusic Review

I had this album many years ago in vinyl format under the title of John Lee Hooker Big Band Blues. The sessions were originally done in 1963, but the music really holds so many years later. It was such a great blues album back then and had I known it was available on remastered cd I would have bought it a few years ago. Actually, the only reason I knew it was available was because Sears Canada used the tune 'I Want to Hug You' for their Christmas TV ad. I highly recommend this album! ---dghawk, amazon.com
