So this is a Limited Edition release for hard-core fans - and lovers of down-home, greasy blues, guaranteed to burn the house down, with Popa and Arthur trading solos like straight shots of bourbon. No Popa Chubby originals here, but a selection tasty cover-versions - some well-known, some less so, and including material by Junior Wells, Johnny Winter, Carl Perkins, Muddy Waters, Ma Rainey, Willie Dixon and Neil Young.

Between two world tours and two recordings of his own, (the 2nd Volume of "Presents NYC Blues" and his new studio album "The Good The Bad & The Chubby") Popa Chubby likes to spend some good time and play the real thing with his band "The Black Coffee Blues Band" , with his wife Galea, on bass and helping out on vocal duties; Arthur Neilson, on guitar (who has a critically acclaimed album "A Piece of Wood, Some Strings & A Pick "DFGCD 8511) Dimitri on drums, and Mister New-York City Blues himself on lead guitar and vocals.
