New York City's blues bad boy totally inspired for two special evenings organised by FIP/Radio France (in 2001 & 2002). Two hours of rough music mixed by one of the best sound experts. Two historic CDs. The best live recording to date from the Brooklyn ogre. The ultimate rage in a diamond case ! ---bluesweb.com

“My music follows my life and that’s why I’m back with the blues,” Horowitz says. “What makes something great is true content. And when I made this I was still aching from what went down with my old lady. With all that was going on in my head, I heard Muddy Waters singing, ‘it’s been 24 hours since my baby’s been gone and that’s 23 hours way too long’ when I was driving back from the Midwest on a tour. It made me think of my situation with my old lady and it hit me like a ton of bricks. There was nothing like what the old bluesman did. They were authentic and you don’t get a lot of that today in music.” ---Popa Chubby, intrepidartists.com
