Change My Life is the fourth solo album by British blues guitarist Snowy White, and the first under the Snowy White's Blues Agency name, released in 1988.

White retained the services of bassist Kuma Harada, who had featured on his first three solo albums, and they were joined for this album by singer Graham Bell, who had previously worked with Skip Bifferty and Long John Baldry. The album featured five original tracks and seven cover versions of old blues songs.
