Jose Carreras & Montserrat Caballe - Souvenirs (Sony) is a compilation with Carreras and Caballe as they sing a variety of songs. Hearing Carreras sing in English is terrible as his accent sounds like a beginner. The rest of the compilation is strange mix of composers and songs. It is like they decided we need a compilation album of these artists and then threw together a vast array of styles that do not go that well together. Musical and Wagnerian music is not a good mix. Still it has its moments and on the whole I give it 4 out 5. Recommended.
