Felix Mendelssohn - Violin Concerto in E Minor (Jansen) [2007]

Violin Concerto in E Minor, Op. 64 1) *I Allegro molto appassionato* (13:00) 2) *II Andante* (8:01) 3) *III Allegro molto vivace* (5:53) Janine Jansen - violin
Gewandhausorchester Riccardo Chailly - conductor

This is an absolutely stunning performance! Although I love Mendelssohn's violin concerto so much I hesitated buying this CD at once. I just had hard time finding the ONE recording for my taste believe or not. However this beautiful young lady impressed me way much more than I expected! Wonderful feeling, power, technique are there with a great tonality. Orchestra/Chailly is superb, really a great work all together. I guess this will stop me from hunting for another great recording of the Mendelssohn for a while. ---Vissi d'arte, amazon.com
