I recently learned about Chester Thompson's solo effort POWERHOUSE from my friend, Pacific Northwest based jazz organist Louis Pain. Pain, who plays with Mel Brown's B3 Quartet, is himself an able protege of Thompson. I was long an admirer of Thompson's work with Tower of Power. His funky grooves and solid backing helped to propel the soul-jazz-funk based band. POWERHOUSE was originally released as an LP, but its recent release as a CD gives the work the potential to be rediscovered by a entirely new host of listeners. For those who love the Hammond B3, Thompson's POWERHOUSE will be a welcome addition to their collections. ---Gary Cummisk, amazon.com
