Altoist Eric Marienthal's debut as a leader has four notable guest appearances by his employer, keyboardist Chick Corea, and one spot for guitarist Frank Gambale. Otherwise, he is generally joined by a quintet also including keyboardist Jim Cox, the great bassist John Patitucci, drummer Vinnie Colaiuta, and guitarist Pat Kelley. The ten obscure songs (only two by the leader) are worthwhile, if not overly memorable, but Marienthal's soulful solos are always fun to hear. ---Scott Yanow, Rovi
