I too wish that I had purchased this album way back. Absolutely superb, solid bass playing, great bass lines, great melodies and superb voice. This and his other title 'Says Who' are probably my most listened to albums of all time. I own Kubicki Ex. Factor basses myself and can relate to the funky sound given and I think this helps even more to appreciate his incredibly fluid playing style. His playing is simply amazing and his writing skills are a credit to him. Keep it up Vail, you are up there with the best ! –-Steven Davidson, amazon.com
