Thanks to the trophy « Jazz à Vienne/Rezzo Focal », the Imperial Quartet has recorded its second album in January 2013 at the Flon Studio in Lausanne (Switzerland). Slim Fat is an express trip through the moderns folks music. It is a urban vision of the popular music, where the bubbling energy of Le Cube is living with big spaces of Bees of Universe. The heavy and thick grooves of Country Jo and D&G is based on the atypical marriage of electric bass/bass sax/baritone sax. There is also lyrical moments with Tupac Amaru and Dojo. The Imperial Quartet makes its dream and fatasms come true, by the pleasure of sharing and playing its music. --- naive.fr
