The fact that Eros Ramazzotti was born in Italy doesn't keep him from being one of the world's biggest Latin pop stars. The album E2 (2007) is a culmination of Ramazzotti's achievements, summing up 18 of his greatest hits (alternating between original versions and updated remakes) and also featuring a bonus disc of remixes and duets. E2 includes the full range of Ramazzotti's music -- ranging across rock, pop, balladry, songs in both Spanish and Italian (depending on which edition you buy), and duets with Carlos Santana, Tina Turner, and Ricky Martin. ---Rovi

Well, if this fantastic compilation doesn't bring Eros front and center in the US, then nothing will. Maybe if he goes on American Idol or does a few stints in rehab, he can reach the success levels of the commercial stars of today. Then again, here's to hoping he continues to care less about whether the US latches on to his music. We like him better that way. His music has touched my family, my children, who sing all of his songs fluently, while we don't even speak Italian (we are learning though, thanks to Eros). His music has a real, sincere, melodic feel no matter what type of song it is. Fuoco nel Fuoco is fantastic anyway, and even better with Carlos Santana. Un'Emozione per Sempre with the Chieftains is enchanting also. Listening to his music and his voice mature from CD 1 to CD 2 is as interesting and exciting as the Steve Vai appearance on Dove C'E' Musica. Buy the ROMA Live CD also. Go ahead, watch it and try not to become a fan. Eros, this family in Connecticut is ready to travel wherever and whenever you decide to tour for this record. Thank you for staying true to your style and your music. This collection is truly spectacular. --- PaulJo325, amazon.com
