A Classy, Eclectic Album, "Singing Paris" is 20 Years of Pop the French Way. If the World Had Its Sights Turned Toward England Between 1955 and 1975, Yet in France the Musical Panorama was No Less, Satisfying, Shifted and Free. The Best Way to Illustrate this Frenzy is the Music that Came from Paris Apart for Big French Songs, There Isn't Much of a Welcome for Anything Else. Those who Are Skeptical Are Going to have to Change their Minds! Wild Compositions, Lyrics Attempting to Be Filled with Humour and Mockery, Adapting to Overseas Success with True Musical Jewels, the Common Denominator of These 24 Songs is their Modernity. They Come from Artists who Can't Be Ignored, Cinema Stars Pushing the Lighthearted Songs, Distinguished People who Had Previously Been Unknown. Far from Being Just Another Black and White Retro Compilation, "Singing Paris" Comes to You in Full Technicolor! --- Editorial Reviews, amazon.com
