Those who are familiar with the music of Pablo Milanes will agree that this is a "must have". Para vivir, Yolanda, El Breve Espacio, La Novia que nunca tuve, El primer amor, Ya ves, are some of the most beautiful, important and sensitive love songs ever written in the Spanish language. However, if I was to choose ONE among all the titles, as the one carrying the most powerful and meaningful message of Pablo's career, I would definitely pick "Cuando te encuentre". Those who are able to understand this message (and this goes beyond merely understanding the Spanish language), will also understand the greatness of this man, not only because of his ability to write beautiful music and poetry, but by his transcendental passage through life and eternity. ---amazon.com

I love Pablo, his lyrics are fantastic, very sensitive and creative. I've listened to his music since my teens but I wanted to star my CD collection. The only bad part is that the songs are not masterized nor remade, they sound still like the ones I used to listened to 15 years ago, but I still love them. ---L.Martinez
