The best album of Los Tetas. Their debut album mixes first class funk with rock and hip hop. It was quite a success at the time. This chilean kids got a record deal before most of them got 18, but sounded better than most 'old' bands. It has the amazing single "Corazón De Sandía" and also "Hormigas Planas". Sadly, later they leave the rock influences aside and kind of lost their outstanding vibe. ---multiverse, rateyourmusic.com
