It's hard not to hear '**Winter Wonderland**' in the Winter. Mostly in December, before Christmas. That's why this song is often recognized as a carol, however today it can be considered a pop piece. In general you may acknowledge it a Christmas Song.

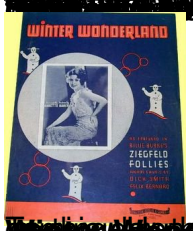

The lyrics have been written first. It is a magical vision of a world covered in snow full of snowmen, sleigh bells ring and children joyfully playing. This was the image **Richard B. Smith** (known as Dick Smith) saw in Central Park of Honesdale, a small town in Pennsylvania.

Winter Wonderland

Dick Smith had tuberculosis. To improve his health he stayed at Scranton Health Spa located 30 miles from Honesdale. And that is where he has written Winter Wonderland's lyrics.
