By 1988 Leonard Cohen had undergone something of a renaissance in North America, propelled by the success of Jennifer Warnes's 1987 Famous Blue Raincoat album. He supported his widely acclaimed synthesizer-heavy I'm Your Man album (1988) with a tour of Europe, the US, and his native Canada. This superb performance at Massey Hall in Toronto on November 9, 1988, was broadcast live on CBC Radio. --- cohencentric.com
