This three-disc collection features 15 previously unreleased tracks including live material, demos, and studio outtakes previously unreleased, alongside a substantial number of the duo's hits. Early demos point up Paul Simon's excellent acoustic guitar fingerpicking and emerging songwriting. "The Sound of Silence" is featured in its original undubbed form and the later overdubbed band version that became the hit. The duo's strongest work is all here, and the addition of several B-sides makes this a helpful collection to have around. --Rob O'Connor,

### Editorial Reviews

During their brief but remarkable career, Simon and Garfunkel recorded a mere five albums (not counting "The Graduate" soundtrack), and now there are at least as many repackagings of their work. Rather than waste time deciding where each collection overlaps, and which of your favorite tracks are or are not included, your best bet may be to pick up "Old Friends," a handsomely designed three-disc set.

All the major hits are here - "Sound of Silence," "Bridge Over Troubled Water," "Mrs. Robinson," "At the Zoo," "Scarborough Fair," "Cecilia," "I Am A Rock," "Hazy Shade of Winter," "El Condor Pasa," and "The Dangling Conversation," among others - as well as comparatively obscure gems like "Fakin' It" and "The Only Living Boy in New York."

What gives "Old Friends" the edge over other collections is the unreleased live version of "Red Rubber Ball," the Paul Simon composition previously available only in a version by The Cyrle, and the inclusion of the rarely anthologized "Keep the Customer Satisfied" and Simon's rewrite of Edwin Arlington Robinson's poem "Richard Cory."

The remastered sound is superb, and there's a booklet with an essay and rare photos. In one rather Orwellian move, the cover photo has been airbrushed to remove a cigarette from Simon's left hand, but the Surgeon General isn't mentioned in the credits. ---Brian W. Fairbanks, amazon.ca
