Nirvana Bootography Review: This disc would have to be the best recording of the 1993 US tour.... not necessarily the best set list, but easily the among the best any show recordings. This sound on this disc is utterly amazing and could be compared to "Roma." Kiss The Stone has released this show as "Up In Smoke," however, the KTS version lacks "Demolition" and doesn't have any of the cool SNL rehearsal filler (last 3 tracks). This is definitely a disc to pick up.
