Although Free made excellent studio records, Free Live! is perhaps the best way to experience the band in all its glory. Led by singer-guitarist Paul Rodgers and lead guitarist Paul Kosoff, the band swings through nine songs with power, clarity, and a dose of funk. Of course, the hit single "All Right Now" is gleefully extended, much to the audience's and listener's delight. Superbly recorded by Andy Johns, this is one of the greatest live albums of the 1970s. ---Matthew Greenwald, AllMusic Review

Not just one of the best live albums of the 70s but of all time - there are three live albums that in my view, stand out above all others: Get Yer Ya-Ya's Out, Made in Japan and Free Live. Partly recorded at the old Fairfield Halls in Croydon, where a pal of mine claims he can be heard shouting out on one of the tracks! This is the definitive way to listen to a great British rock/blues band. ---Paul Connor, allmusic.com
