Twenty-two-year-old piano sensation EZRA LEE lets you know first up that he's a rock'n'roll piano man – and proud of it – on his debut album from Press-Tone International, *You Can't Stop A Freight Train!*. He lets fly with an original, *Just One of Those Things*, showing off his vocal skills and impressive ability on the ivories. Ezra's tasty piano work is accompanied by Pat Capocci on guitar, tic-tac bass, bottleneck slide and backing vocals. Pat and Ezra also share the songwriting duties on this 14-tracker, along with two contributions from Cal Robinson. He's cut his teeth on rockabilly, rock'n'roll, boogie, jazz and blues in the style of JERRY LEE LEWIS and FATS WALLER and it shows. Playing in JOHNNY GREEN'S BLUES COWBOYS has only added real depth of experience to this young man's repertoire. This is a great album to dance to, with a good mix of country, R'n'B, rockabilly and rock'n'roll. Now with this highly credible debut behind him, you can't stop Ezra Lee! ---Anna Rose, capitalnews.com.au
