Tanzan Music have announced that Italian rockers Smokey Fingers released their sophomore album *Promised Land* on June 10, 2016.

Tanzan Music described the Smokey Fingers' sound and debut album *Columbus Way* as follows (with slight edits): "The combo main inspiration is taken from the American southern rock music, merged with blues and country, all mixed, shaken and served in a fresh and innovative version, a new vision, still related to the greatest bands of this genre (Lynyrd Skynyrd and Allman Brothers above all), but greatly looking at the future, with a sound which is powerful and immediate! "Columbus Way" is based on a solid and sincere sound, the true sound of the band as it would have been taken in a live session. This engaging sound is enriched by several takes of slide guitar, dobro and lap guitar and will take the listener to the sunny and dusty roads of Alabama! The album, co-produced by Mario Percudani, has been recorded in the new and ultra modern Tanzan Music Studio. Great attention has been paid in trying to catch the real spirit of the band, a band who has its natural habitat on the stage." --- sleazeroxx.com

"Promised land" is the much anticipated follow up to "Columbus Way" which was released five years ago. An album which brings to life the hopes and dreams on a larger and more realistic

scale deriving from many personal experiences giving the album a more brighter and fresher sound in respect to their previous works. Many songs on the album were written from Italy to the USA based on an experience of backpacking and travelling so as to live the American reality. Once again, the band collaborated with their good friend and producer Mario Percudani, owner of the Tanzan Studio where the album was recorded. Special guests on the album include Anchise Bolchi, Paolo Apollo Negri, Marcella Casciaro e Sara Matera.

The hard work of writing and putting the songs together demonstrate what an incredibly talented band Smokey Fingers are, showing their love and sound for Southern Rock and delivering riffs and vocals that will not disappoint. --- label.tanzanmusic.com
