Born into music from day 1. Growing up as a kid in his grandparents house Jeff always had the company of music to go along with his many cousins. Music is not something that can be taken away as far as this musician is concerned.

Picking up his first guitar at a very early age of 3 it all started with Johnny Cash. From there it developed into Deep Purple, Sabbath and Kiss.

As the years went by it evolved into much more. Playing and recording for the past 18 years professionally and for the past 14 years as a producer and engineer as well.

Jeff has had his music hit the billboard charts on multiple occasions not only as a player but producer as well. "Music is my life not just a part of it." Learning the craft of engineering from legendary Michael Wagener during his recording workshops Jeff now spends alot of his time producing and recording music for others.

Jeff is now stepping out on his own as a solo artist for the first time in his career with his new release IN THE KEY OF BLUE. --- reverbNation.com
