A lot of crazy stuff is going on in the world right now, but it won't stop us from releasing our album this week. Pre-order is coming up tomorrow and with that we release the first song. Don't forget to follow us on Bandcamp to get notified as soon as pre-orders are available.

Out of the bleak landscape of rural South Germany, between huge industrial plants and dark, remote forests, comes ETERNAL ENGINE. They combine the progressive approach of bands like ELDER or SKRAECKOEDLAN with melodic doom like PALLBEARER and heavy stoner riffing like THE SWORD, without sounding like any of those bands. Since their founding in 2014 guitarist and vocalist Uwe Halmich, drummer Corbinian Schwarz and bassist Bouke Van Haasteren crafted a unique sound of heavy riffs and atmospheric melodies and finally managed to capture all that on INTO THE VOID.

INTO THE VOID tells 7 stories from the top of the highest mountain, over the war-ravaged lands to the deepest of hell and into the void of space. ---theobelisk.net
