Real Name- Walter Brown McGhee. Brownie McGhee's death in 1996 represents an enormous and irreplaceable loss in the blues field. Although he had been semi-retired and suffering from stomach cancer, the guitarist was still the leading Piedmont-style bluesman on the planet, venerated worldwide for his prolific activities both on his own and with his longtime partner, the blind harpist Sonny Terry. Together, McGhee and Terry worked for decades in an acoustic folk-blues bag, singing ancient ditties like "John Henry" and "Pick a Bale of Cotton" for appreciative audiences worldwide. But McGhee was capable of a great deal more. Throughout the immediate postwar era, he cut electric blues and R&B on the New York scene, even enjoying a huge R&B hit in 1948 with "My Fault" for Savoy (Hal "Cornbread" Singer handled tenor sax duties on the 78).
