Spirit of Mercy is a collection of blues and spiritual songs from the high praised Mercy and Spirit & Freedom albums (now out of print). It includes two alternate takes of Jesus on the mainline and The soul of a man. Mercy is an amazing Spiritual-Blues CD by Fabrizio Poggi & Chicken Mambo released in 2008. Mercy was born out of Fabrizio's struggles with health problems over the past ten years. It expresses his gratitude for a life rediscovered. It's a therapeutic album, inspiring and poetic. Accompanying Fabrizio and his band on this adventure are a large number of great, even legendary, musicians. They are true friends who have played with him in America and Europe: Garth Hudson (The Band, Bob Dylan), his wife Maud, Seth Walker, Ponty Bone (formerly of the Joe Ely Band), Rob Paparozzi (Original Blues Brothers Band, Blood Sweat & Tears) and Donnie Price. Those who have already heard the CD have been struck by it. Some have described the songs as intense and interior, moving and profound. Others say they have rarely heard a recording of this sweetness and humanity, a CD full of emotion and heart for music and life. Mercy is a precious album, to enjoy slowly note after note. Spirit & Freedom is a touching and intense CD by Fabrizio Poggi & Chicken Mambo released in 2010. Accompanying Fabrizio and his band on the amazing Spirit & Freedom are a large number of great, even legendary, musicians: The Blind Boys Of Alabama, Flaco Jimenez, Garth Hudson (The Band), Charlie Musselwhite, Augie Meyers (Texas Tornados, Sir Douglas Quintet, John Hammond, Bob Dylan), Eric Bibb, Guy Davis, Billy Joe Shaver, Tish Hinojosa, Maud Hudson, Mickey Raphael (Willie Nelson band), Kevin Welch, Debbi Walton, Nora Guthrie (Woody's

daughter) and many others. Here's what Fabrizio said about Spirit & Freedom: Spirit and Freedom are not only two distinct words. If you put them together they are a place of soul. Indeed, there is no spirituality without freedom and there is no freedom without spirituality. Here you can find songs that have marked the evolution of my musical journey, songs by the increasingly significant, songs in their simplicity essential to address fundamental issues such as free spirits could only sing. Images, feelings, memories, hopes and dreams. Spirit & Freedom is something that we really need, more than we know. A REAL freedom. Freedom in our mind, hearts, souls and relationship. Free like the Angels that help us in the darkest hours of our lives. Welcome aboard. We're leaving. --- chickenmambo.com
