Heavy spaced out cosmo-jazz on the title track that stretches over 20 minutes and occupies the whole A-side. The piece starts out with dreamy, haunting vocals, flutes and some really nice hammond playing from Krzysztof himself and when you least expect it, the whole thing burst out in a heavy jazz-funk jam. The B-side kick off with another killer tune entitled "Alfa Centaura", heavy backbeat driven funk with trumpet, sax and hammond solos and the psyched out high pitched vocals adds a nice vibe to the theme. Rest of the B-side is more straight jazz style but there's no really weak tracks on this LP. No reissues as far as I've seen. Highly recommended!
