This disc is dedicated to the late Billy Adair who was a Professor of Music at Blair School at Vanderbilt University and passed away in 2004. His wife Beegie reached out to friends and other musicians to create this disc of songs that Adair and other deceased family members had enjoyed as well. Mrs. Adair also plays piano and sings a bit on this release. ---wtju.net

Pianist Adair is based in Nashville. She has played western swing, delta blues, and jazz standards for ever, and is a favorite among many of country music's most adept performers, several of whom shed their genre stylings to join her here. Like Dr. John or the Memphis players, her touch which is deeply light, guides and frames extraordinary performances. Joining her here are Vince Gill, Delbert McClinton, Ray Stevens, and Carolyn Martin on vocals. ---kuci.org
