The choice for "Misa Criolla" and "Navidad Nuestra" CDs between the Carreras and original versions is very easy. If you appreciate beautiful singing then this Jose Carreras version is the ONLY choice. His delicate, exquisite, light, artistic singing is as lovely as you will find. If your taste is to pop or folk music, then you will prefer the original 1964 version which has the merit of a more pronounced forward recording of the instruments and choir giving an overall clearer and stronger and more articulated role for the instruments adding excitement and presance. Also the words are more clearly articulated by the singers in this version. The Carreras version places the choirs and instruments farther from the mics thereby emphasizing the soloist. The most beautiful and melodic of the pieces is clearly "El Nacimiento" (the birth) in "Navidad" and here the Carreras rendition is far, far, far more satisfactory and indeed his singing of this is one of the most gorgeous Christmas recordings I have ever heard. The original recording rushes this piece (being 2:54 compared to the Carreras' 3:54) and fails altogether to capture its beauty and message.

One complaint about both CDs is the failure to include both the Spanish text and an English translation of "Navidad". Not only is this omission inexcusable so that the listener can know exactly WHAT is being sung, for after all these are SONGS, meaning the words are very
