This cassette was self-released by the band in 1984 on their own label called Tank Records. It contains recordings made during their legendary appearance at the Jarocin Festival, on August 1st, 1984.

Band members, specifically Dezerter's bass player, Dariusz "Stepa" Stepnowski, spent time assembling the cassettes themselves and then recording each one. The finished product was then sold at the band's shows. ---discogs.com
